

Amazon Alexa Setup

Getting Started

- Download Alexa App in your mobile device. Please follow this [link](#) if you haven't done this.
- Setup your Echo device through the app. Please follow this [link](#) if you haven't done this.
- Make sure you have the latest version of MyPlace app on your wall mounted touch screen.

Pairing Smart Khaya

- Open the Alexa App and go to the settings menu. 
- Select Skill & Games.
- Tap the search icon  and search for "Smart Khaya".
- Select the "Smart Khaya" skill and tap the "enable to use" button. This will take you to the "Account Linking" page. The access code can be generated from your MyPlace app.
- Open the MyPlace app on your wall mounted touch screen, go to Setup – Options. Press the "add" button, then in Account Linking Wizard page, press the "generate" button.
- Return to your mobile phone and enter the access code on the Smart Khaya Account Linking setup page and press "submit".
- If you go over the two minute time limit then you can generate the access code in the Account Linking Wizard page again.

Once connected your commands will be:

- ❖ Alexa, open/tell/start Smart Khaya or Alexa, Smart Khaya
- ❖ Alexa, Ask Smart Khaya to turn off (or on) the Aircon
- ❖ Alexa, Ask Smart Khaya to run MyWelcome (or MyGoodbye)
- ❖ Alexa, Ask Smart Khaya for help

To unlink your Amazon account from Smart Khaya, follow steps below:

- Open the Alexa App and go to the settings menu. 
- Select Skill & Games.
- Select the “Smart Khaya” skill and tap the “disable skill” button.
